Glad hander

Seth Bridger gave some Servatti treats to Ray Boehringer

Program

John Fay a 75 Grad of Elder and University of Dayton and current beat writer for the enquirer/reds spoke at length about how reporting has changed throughout the years as well as the current status of the reds.

John gave many Kudos to the Castellini family for taking the necessary steps to attract talent, develop young players in an effort to bring a World Series championship back to Cincinnati.

He spoke at length about current players like Votto, Phillips, Bruce, Chapman, commented on Dusty Baker.

The Castellini's have and continue to do everything they can to bring a winner to Cincinnati. The final piece of the puzzle lies in winning post season games and things will continue to improve.

I don't care what they say; I'm the best lookin' Murphy!

Ryan Murphy, Bulletin writer
