Remember, recruiting new members is every Kiwanians responsibility. Invite a friend to join us for lunch on Tuesday.

## **Announcements**

Jim Eger provided us with his usual profession piano playing before the meeting as well as Happy Birthday to our July birthdays.

August 5th Board Meeting, important discussion on the future direction of the Club and the Harvest Home Fair Association. We need to have a count so sign up at the next Tuesday if you are coming to the Board meeting.

We had a service day at Wesley Community Services on Saturday and another service day after the meeting today. We helped pack meals for Meals on Wheels, a program that Welsey administers. We will have more Service days in the future, join us.

## **Health and Cheer**

John Murphy is in Rehab at Twin Towers.

Dana Braun broke her ankle, falling off a Barstool?

## **Program**

Doc Gerhardt introduced our speaker Larry Busby. Larry graduated from Purdue and worked for Crosley-

Avco and then Cincinnati Electronics. Larry built a solar home. It is a passive solar home. Heat is provided by the Sun. The design of the house collects and stores heat which is released when the Sun goes down. They use about 1-1 ½ cords of wood a year on those dark days of Winter. Outside of that the Sun provides all the heat they need.

Larry lead us through the construction of his home and showed us pictures of the finished product. Quite a project and an amazing outcome.
